

## REALLY NASTY WEEK COMING UP    posted Friday October 14, 2016

Thursday, October 13 = Mercury square Mars = "Argumentative, Quick mind but provocative."

Sun Contra-parallel Uranus = "Impulsive & unpredictable" **Result = DJIA was -184 but closed down only -45.**

Friday, October 14 = Mildly positive market 1 hr 13 min before NYSE Close as Mercury (60 deg) Saturn.

Sat., October 15 = Sun opposes Uranus = "Self-will and independence are strong, may act disruptively, controversially."

Sun parallel Neptune = "Normal understanding & vision are obscured... deception, confusion."

Mercury squares Pluto = "You may see the heart of a situation, or a person's motivation, insightfully, but from a harsh, insensitive, resentful position."

FULL MOON = Late Sat. East Coast, early Sun elsewhere. Pluto is less than 1 degree from exact square to Mid-heaven for Washington DC. That could mean that Power goes to extremes +/- three days! Or possibly to the next Full Moon November 14. We are concerned about these possibilities.

Sunday-Monday October 16-17 = Venus semi-square (45 deg) Mars, Sun sesqui-quadrate (135 deg) to Neptune = Misunderstandings – Plans may degenerate or dissolve into confusion.

Tuesday, October 18 = Venus entering into Sagittarius and semi-square Pluto at zero and 15 degrees = Boys & Girls may not get along. Among the negative outcomes are Rape and Bankruptcy. (definitely NOT from Dell)

Wednesday, October 19 = Mars conjoins Pluto on Final Debate day! Moon negative to Saturn, Pluto and Mars! (These 3 are conjunct high in Mrs. Clinton's chart). Here's what Dell says about the Mars/Pluto conjunction = "Battle-equipped, you pursue desires with focus, persistence, pressure-tested will, but don't be brutal. Physical endurance brings victory.

Note: Most of these interpretations were excerpted from DELL HOROSCOPE magazine for October Others were our own.
